University of Washington Press. Paperback. Book Condition: New. Paperback. 168 pages. Dimensions: 10.9in. x 8.4in. x 0.5in.Archaeology--along with Native American traditions and memories--holds a key to understanding early chapters of the human story in Washington. This all-new book draws together and brings up to date much of what has been learned about the states prehistory and the environments early people experienced. It presents a sample of sites representing Washingtons geographic regions and touches on historical archaeology, including excavations at fur-trade forts and the Whitman mission, and Cathlapotle, a Columbia River village visited by Lewis and Clark. Also included is a summary of the changing role, techniques, and perspectives of archaeology itself, from the surveys and salvage excavation barely ahead of dam construction on the Snake and among Columbia rivers to todays collaboration between archaeologists, Native Americans, private...
