A SCIENTIFIC MODEL OF HISTORY Where Is the Future Leading Us

By JuanJose Gomez-Ibarra

iUniverse. Paperback. Book Condition: New. Paperback. 178 pages. Dimensions: 9.0in. x 6.0in. x 0.4in.Have you ever wanted to know why civilizations decay or why war has been a recurrent phenomena throughout history; what are the forces causing population explosions, and why it is very likely that the power balance between todays developed countries and the less-developed world will be altered in the decades to come A Scientific Model of History provides the simplest answers to these questions, as well as many others regarding the limits of our social organization, such as why even todays most advanced economies are incapable of preventing huge inequalities in the distribution of wealth to appear. Thanks to an analysis developed in terms of four inextricably linked variables (Natural Resources, Population, Technology and Standard of Living), this book, besides identifying the ever-recurring historical cycles that have affected all historical societies, also provides an insight on how our historical evolution will cause civilization to reshape itself beyond recognition. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.

Reviews

Undoubtedly, this is the best function by any writer. This really is for those who statte there was not a really worth reading. Its been written in an exceptionally basic way which is merely right after i finished reading through this book by which really transformed me, change the way i really believe.

-- ***Dr. Deonte Hammes DDS***

Absolutely one of the best pdf I actually have possibly read. Better then never, though i am quite late in start reading this one. I realized this book from my dad and i encouraged this ebook to discover.
