By Porter, James W.

Book Condition: New. Publisher/Verlag: Springer Netherlands | The Ecology and Etiology of Newly Emerging Marine Diseases is a unique contribution to an entirely new field of scientific investigation. Studies in this book unequivocally link marine diseases to global climate change. The book changes our perspective on the major controls over the population dynamics of marine organisms. Papers in this volume clearly identify the intimate connection between public health and environmental health for marine-borne diseases such as cholera and human enteroviruses. | Preface.
