Reviews

The very best publication i at any time study. It really is basic but shocks inside the fifty percent of the ebook. It is extremely difficult to leave it before concluding, once you begin to read the book.

Dimensions: 11.0in. x 8.5in. x 0.4in.THE DISPERSION OF RACES, ACCORDING TO THE URANTIA BOOK tells the story of evolution on our planet that finally puts to rest Darwins theory that life evolved here and elsewhere by accident, even though lifes incredible complexity seems to point to its creation by God. The answer to this seeming contradiction is that both are true at the same time: Creation by God is true, as is evolution by natural selection. The missing link here is guidance by what URANTIA calls Life Carriers, who are created beings specifically given the responsibility to scientifically create the germ plasm of a planet. Each germ plasm consists of about one million chemical codes that then guide evolution in its unique pathway on that planet, to which the Life Carriers impart the spark of life in order for the inert patterns to become living matter. Here is how URANTIA spells this out: (396. 1) 36: 0. 1 Life does not originate spontaneously. Life is constructed according to plans formulated by the Architects of Being and appears on the inhabited planets either by direct importation or as a result of the operations of the Life Carriers of the local universes. They are entrusted with designing and carrying creature life to the planetary spheres. And after planting this life on such new worlds, they remain there for long periods to foster its development. (400. 3) 36: 3. 8 When the Life Carriers operating on a new world have once succeeded in producing a being with will--with the power of moral decision and spiritual choice--then and there, their work terminates; they are through; they may manipulate the evolving life no further. From this point forward, the evolution of...
