Graphics Management Press, 2006. EBook. Book Condition: New. eBook on CD 2006; 634 pages. Two Volumes. 18 chapters. 2000+ images. 630 original custom iNovaFX Photoshop Actions. PLUS a 38-page D80 image Gallery. Two volumes including RAW Materials by Uwe Steinmueller. Interactive eBook on CD. D80 images are to die for, and the camera's controls put everything you need at your fingertips. The eBook puts hundreds of ideas and techniques at the fingertips of your mind. The camera is so deep and smart, that its eBook has grown to become the largest one in the DSLR series--a few pages larger than the Nikon D200 eBook. Pages print on letter paper in a new horizontal letter-page format to better fit your computer screen. Interactive animated examples are on nearly every page. Embedded movies show you things still pictures can't. As with prior titles, High-resolution (200% viewing) and Ultra-resolution (400% viewing) versions are on the eBook CD along with many extras, software demos and newly customized iNovaFX Photoshop Actions--over 630 in all. Note that the iNovaFX Photoshop Actions require Photoshop 6, 7, CS or CS2 and not every Action is right for every picture. Some examples: How to achieve those stunning full circle Nikon fisheye images with the D80. How to master the SB-800/600 Nikon flash system. How to get the most out of every button, switch and menu item. 19 pages detailing which Nikkor lenses to buy and which to pass up. How to dial in 4200 different settings of digital "film" and how they compare. Which techniques take practice and how you can become a D80 virtuoso. How to shoot remotely triggered repeating flashes. How to shoot images with tonal dynamics exceeding film or RAW format shots. How to make pixel-perfect D80 images over 5000 pixels wide. How to make those...
