It is widely recognised that the foreign aid systemwhich today involves every country in the worldis in need of drastic change. But there are conflicting opinions as to what is needed. Some call for dramatic increases in resources, to meet long-overdue commitments, and to scale up what is already being done around the world. Others point to the flaws in aid, and bang the drum for cutting it altogetherand argue that the fate of poor and vulnerable people be best placed in the hands of markets and the private sector. Meanwhile, growing numbers are suggesting that what is most needed is the creative, innovative transformation of how aid works. Aid on the Edge of Chaos is firmly in the third of these camps. In this ground-breaking book, Ben Ramalingam shows that the linear, mechanistic models and assumptions on which foreign aid is built would be more at home in early-20th-century factory floors than in the dynamic, complex world we face today. All around us, we can see the costs and limitations of dealing economies and societies as if they are analogous to machines. The reality is that such social systems have far more in common with ecosystems: They are complex, dynamic, diverse, and unpredictable. Many thinkers and practitioners in science, economics, business, and public policy have started to embrace more ecologically literate approaches to guide both thinking and action, informed by ideas from the new science of complex adaptive systems. Inspired by these efforts, there is an emerging network of aid practitioners, researchers, and policy makers who are experimenting with complexity-informed responses to development and humanitarian challenges. This book showcases the insights, experiences, and often remarkable results from these...
